

# Finding The Cheapest Gas near you

## Functionality

The app will Allow you to filter location, cheapest price and prefered brand

Austin Harrelson

The app will also account for deals on specific gas brands (such as 10 cents a gallon with walmart plus at murphys)

Austin Harrelson

The app will have a google map functon where you can see the nearest gas stations based on your preferences

Austin Harrelson

Have a built in approximate cost based on you entering how much gas is left in your car

Austin Harrelson

## Price/Cost

Research Prices of Specific Gas Station Brands

(So ... Murphys,Bp,Shell etc...)

Austin Harrelson

Search for the Avarage price of gas across the US in each state

Austin Harrelson

Ask how much people waste on gas a month

Austin Harrelson

The app is free but does require your location while using the app for specific features.

Austin Harrelson

## Features

(Information not required to be shared)

Austin Harrelson

ability to apply discounts by using the apps point rewards system that you have to pay for.

Austin Harrelson

## Tech issues and complaints

For users who have electric cars or teslas we have a specific filter for those cars

Austin Harrelson

Have a FAQ page to answer those questions most commonly asked.

Austin Harrelson

Complaint request email and contact information for the owners of the site

Austin Harrelson

A live social media page where others can talk about the website and others can answer others question

Austin Harrelson

## Survey Potential Users

If we created a app what would you want the app to tell you about gas stations near you?

Austin Harrelson

Ask people where the nearest gas station that they know of in relation to where they live.

(Within a 5 mile radius)

Austin Harrelson

How much does pricing affect your gas locations?

Austin Harrelson

what information would you need to know about the area around your local gas stations?

Austin Harrelson
